Lake Sustainability Planning - Draft "State of the Lake" Report to be unveiled

The first version of the long awaited **Kashwakamak Lake "State of the Lake"** report will be unveiled at this year's Annual General Meeting. Members will be able to listen to Scott Bennett's presentation and ask questions to the Lake Sustainability Committee members.

Sustainability Planning Committee began the endeavour of capturing what we know about the lake. A State of the Lake Report is intended to let us know where we are at a given time and place – a benchmark that can be used for reference moving forward. (cont'd)

The State of the Lake Report is the first milestone of the Lake Sustainability planning process – the **Research Phase**. At last year's AGM KLA members learned about the results of the two surveys – one with residents and a second with local business owners, which identified key values and concerns.

Following the survey, the Lake

It's Easy to Help with the Lake Sustainability Plan

Tell us your story!

The Kashwakamak Lake "State of the Lake" Report, which is the first milestone in the lake sustainability planning process includes a "Social History" section which is piecing together the story of our lake and how it was settled. It is a "living" section in that we will be (It's Easy cont'd p. 8)

President's Corner - Gordon Hunter

Happy spring to everyone! I hope you do more than your part to feed the North Frontenac bug population, as I can't shoulder it all. The ice went out, the lake filled fast, the bugs followed quickly and so life at the lake starts again for 2013. This year marks 10 great years for me on Kashwakamak. There have been a lot of changes and many things that have remained untouched. One of the mandates of the KLA is to ensure what's important to the KLA family, stays that way. Go to our website, www.kashwakamak.ca for a list of other KLA mandated items.

New this year! Check out the **KLA Message Boards** around the lake crafted by our own Lake Steward volunteer Milton Houle. Thanks also to Mississippi Valley Conservation for their help with the lettering. The information on them is up to date. Watch for changes and updates as the year progresses.

I want to reach out to the KLA board and its volunteers to say on the members' behalf a great big thank you! You may not be aware of the efforts the volunteer board members and contributing volunteers put forth throughout the year on behalf of you, the members. Your board meets at least once a month, May through October to plan and organize events

and deal with issues of importance to the Kashwakamak Lake community. The KLA board and the Lake Sustainability Planning committee are a very diverse and talented bunch whose involvement is for one thing ... to better our lake environment and community for all of our members. As consultants if they were hired we and most companies could not afford this talent!

It is safe to say that with more help we can make the lake experience even more rewarding. We continue to look for new blood. With the succession planning of your cottage comes responsibilities for managing the hand off to new generations. I am sure that these decisions come with lots of contemplation. The same holds true for the board of directors and volunteers that serve the members. I know that there are folks out there who have people coming up to the lake who share your feelings about our lake and the cottage. We need them to give us their input so we can continue to raise the bar in what the KLA does for its membership.

The **Sustainability Lake Planning Committee** continues to make great strides forward with its' draft "State of the Lake" re-

port. Thanks to Judy McIntyre and her talented team! Be sure to attend a very informative 45 minute presentation at the AGM at the Lions Hall in Northbrook July 13th starting at 9:30 am. Bring your next generation as well to get them up to speed and interested in the future of our lake.

Fire prevention remains a top priority for me and should for you as well. Keep an eye out for Fire bans and situations that would create fire from spreading. Remove from your cottage and other buildings fuel that can feed a fire, (brush, wood & leaves etc.) Make sure your road is accessible ... your SUV does not need the same clearance as a fire truck. Remember fire may not come from your structures but possibly from others or the surrounding forest. Taking precautions and removing possible fuel sources might save what is most precious to you. Burning during a fire ban is not only careless but shows a lack of concern for others. It can also be costly. A fire call to your bonfire during a ban may cost you a lot of money to repay the cost of the response.

Watch the North Frontenac website, www.northfrontenac.com for details concerning bans. They post

(President, cont'd p. 3)

President's Corner, cont'd from P. 2

the fire ban status on their main page. Make sure your renters or guests know the rules.

Okay we have finally done it! This year we made a decision on our **new logo** ... yippy! Thanks Carl Annis! With the new logo design has been made and soon new **Kash clothing** will be available. The unveiling will take place at the AGM in Northbrook. Orders will be taken at that time for the coolest clothing! Be sure to be there or you will be eclipsed by your neighbours ... eek!

KLA members still enjoy the lowest **membership** fees in the province. At \$15.00 annually we are easily \$10 to \$20 under the average. We are striving to deliver the best we can and reserve the right to change the fees in the coming years. Our board is thinking of creative ways to man-

age some new things to offer our members. To finance these exciting improvements we are looking at interesting/

"KLA members enjoy the lowest Membership fees in the province."

rewarding ways to bring in money while at the same time making it FUN! Our fundraising coordinator, Andrew Blake is working on a limited sell **raffle** of a **fishing boat package**. If we can make it happen the odds are silly good and the draw is tentatively set for Family Day August 10th at Fernleigh Lodge. Come to the AGM and watch our website for more details.

The KLA board would like to see kayak/canoe regattas, kids fishing tournaments, teen dances etc. but literally we are

tapped out. We need help. If you are or know a fun loving, energetic person who will help out tell them about us. The more the merrier!

Okay enough! Please plan to attend the various functions that are planned this summer and fall. Give us your feedback and input, as we are here to serve our members. Secretly though we are a fun bunch and enjoy seeing each other. You might feel the same way and we don't have a Senate!

I am proud to serve the KLA and its members! I'm even prouder to work with the entire like-minded board and volunteers. Have a great summer and you are all welcome at my cottage/dock on the south shore opposite the rope swing on Browns Bay.

Health & Happiness
Gordon B Hunter
May 2013

Treasurer's Report - Allen Archibald

Included in this Newsletter mailing is the unaudited Financial Statement of the Association for 2012, together with notes providing background to the numbers. Normally we would have time to have the statements audited before we send them out, and if it works out, then the audited version will be included with this newsletter.

You will note that the cash balance increased by \$2,916.54. This occurred primarily as a result of one payment due in 2011 for \$1,395, but received in early 2012. The expenses associated with the two Newsletters (Spring & Fall) continued to decrease as the effect of distribution by e-mail mailings instead of normal printing and mailing were realized for the full year. However,

the Fall Newsletter printing expense of \$592 was not paid until early 2013, which resulted in the total newsletter costs being understated.

We are pleased to announce that the very popular and successful third annual **Family Day** event produced a profit of \$12 after two losing years.

(Report Cont'd P. 4)

Treasurer's Report, cont'd from p. 3

The tinkering in relation to the cost and fee structure continues with the objective still to break even.

The policy of your Board is that all monies received from Silent Auctions held at the annual KLA are given to a Charity.

Over the past couple of years the collection and then payment of these monies has not occurred in the same calendar year. We

finally caught up with a significant cheque for \$1,100 made out to the Food Bank. We would like to acknowledge **Foodland** in Northbrook who agreed to contribute \$300 worth of food in conjunction with our donation.

All other costs and revenues are in line with the normal functioning of the Association.

Please remember to pay your annual KLA dues which will be gladly accepted in cash or cheque

at the AGM to be held in Lions Hall in Northbrook on Saturday, July 13th. See the details below on how to pay your membership fees. Payments made through **Interac** may be charged a small service fee. Remember that cottagers who are members of the South Shore Road Association, Silver Mine Road Association and the Kashwakamak Cottage Association pay their KLA Dues through their road associations.

Allen Archibald

Paying your Membership Fees with Interac

There are 2 ways to pay your membership fee:

1. Pay by **cheque** made out to: Kash Lake Association

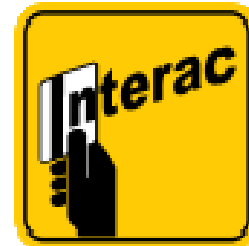

Mail to:

Kashwakamak Lake Association

RR #1

Arden, ON K0H 1B0

2. Pay by **Interac**

How to pay your Association Dues through Interac:

- You are a member of our e-mail group (KLA criteria)
- You bank through a Canadian banking institution only (Interac criteria)
- You use personal accounts only (Interac criteria)
- You set up the question and answer (Interac criteria)
 - specific question to be: **Short name for lake**
 - specific answer to be: **Kash** (KLA criteria)**
- The e-mail address for the payee treasurer@kashwakamak.ca (KLA criteria)

Note: If you bank with CIBC you will have to provide a longer answer than "Kash", so make the answer "Kashlake" and let Allen know you are with CIBC within the comments field.

Membership Renewal Form

Included in this Newsletter package is a Membership Renewal Form. Regardless of whether you will be using this form to make your membership payment, **PLEASE** review your information on the form and let me know of any changes, and of course fill in any blanks.

Our particular interest this year is in capturing

your cottage 911 address. If this piece of information is missing, please ensure you complete it and send it back – by mail or e-mail.

You can e-mail allencarchibald@gmail.com or mail the form to the Kashwakamak Lake Association, RR #1, Arden, Ont. K0H 1B0. One of the most difficult tasks of the Membership Chairman is to maintain an accurate list of the members and their pertinent information, so any additional information or correction is greatly appreciated.

Membership Report – Allen Archibald

Membership decreased slightly over the past year, and is now at 383 members (loss of 3 members overall). This includes 93 members from the South Shore Road Association; 20 members from the Silver Mine Road Association and 21 members from the Kashwakamak Cottage Association, who pay their membership dues through their association.

The slight decrease in membership is related to former KLA members who moved or sold their cottage to a non-family member. As it is difficult for the Board to keep up with these events, we ask you to reach out to new cottage owners on our behalf and ask them to contact the KLA regarding membership.

E-mail Communication

Our efforts to expand our e-mail communication with the members continue, with a total of 27 messages sent out in 2012 and a further 8 messages so far this year. These messages have included:

- ◇ Monthly Alerts from FOCA,
- ◇ Watershed Bulletins from Mississippi Valley Authority,
- ◇ Reminders of scheduled KLA events,

- ◇ Notices of community presentations, talks and workshops provided by local authorities, and
- ◇ Information to keep you informed as to the evolution of high speed internet, the status of water levels in spring and fall, and lost & found swimming docks as well as rafts and paddle boats.

Our e-mail capable members now number 298 (increase of 12 over 2012) or 78% of the total membership. In addition, we will send e-mails to family members, which as of today has added another 78 folk (versus 66 in 2012) who receive KLA related news.

We respect the fact that some members are still using dial-up, and if we are aware of their transmission speed, we do not send them large files. We leave it to you to make sure we know that you use dial-up.

Unfortunately, there are some e-mail addresses that are no longer valid, either temporarily

Photo: Ruth Blamire

or permanently. Please let us know of any change as time does not always permit us to phone the member to check his/her e-mail address. If you haven't received any e-mail from the KLA for a period of time, chances are we no longer have a valid email address for you.

Please be reminded that we treat your information with respect and confidentiality. We do not release e-mail addresses to anyone, but do share e-mail addresses with your road association to try to keep our mutual lists up-to-date.

“Our particular interest this year is in capturing your cottage 911 address ...”

We use your e-mail address to send out information relevant to our cottages and our life on the lake. If you would like to receive our notices, please let me know by e-mail,

allencarchibald@gmail.com so I can add your name to our list. Include if you wish, additional family members along with their e-mail addresses.

LOON WATCH—The Loons are Back!

A sure sign of spring and a clean Lake. Our Loons on Lake Kashwakamak give us these reminders in many special ways: their mournful calls, their beautiful black and white plumage and their patrolling glides over the waters of Lake Kashwakamak.

No sooner does the ice disappear than the first male Loons appear. How do they know????

Loon Spotting on April 20th by the Winneys' in our area seems to indicate the earliest of the arrivals. If you or your neighbours have earlier dates please let me know. My email address is:

dsimpson_59@sympatico.ca
and my cottage phone number

is 613-336-2374.

The Loons of Kashwakamak had a very successful year in 2012. An early spring and retained high water levels brought about early nesting and early hatchings. Young Loons were spotted in the first weeks of June. Because of the early nesting, boat action and waves were negligible creating ideal nesting and high survival rate in the young.

The amount of dual (twin) hatchlings was remarkable!!!

Although the nesting of Loons in 2013 is not early, we can help the Loons have successful hatchings by keeping our distance from their nests and use lower boat speeds, so as not to

wash away their low lying nests.

The KLA has a desire to see these beautiful birds survive and prosper.

We would appreciate anybody who has Loon sightings, Loon Nests, Loon Hatchings etc. to report these. With knowledge we can better monitor and aid our beautiful Loons. You will hear more from your Association shortly on how you can help.

Darryl Simpson, KLA Loon Watch Coordinator

Second High Speed Internet Option Now Available

The big news this year is the added capability of Bell to service our area in respect to high speed internet over the phone lines. Of course you would need a land line phone, but I expect most of you have one.

To determine if you are able to take advantage of this new capability, log onto www.Bell.ca and click on **Shop** and then **Bell Internet**. At some point they will ask for your phone number. This will allow them to be specific as to what speed you could achieve. I just had my internet installed at the cottage and I am now at 5Mbps download and 1Mbps upload. I tested the speed

after installation and it turned out to be 5.14Mbps. I am one "happy camper".

Having acknowledged the new service provided by Bell, I would also like to add that **Xplornet** (our other option up here at Kash) is also working to improve their services and pricing. I am not familiar with their specific and future offerings at this point in time, but if you are considering high speed at the lake you should review all options. If you know of other options other than Bell and Xplornet, I would be pleased to hear from you.

Allen Archibald

Lake Steward's Report - May 2013

The ice was out on April 19th which was much later than last year's mid-March timing. Overall the colder winter meant there was up to 24 inches of ice this winter.

The spring water samples were drawn on May 14th and sent to Dorset to be analyzed. The first Secchi Disc reading was also done on that date. The clarity depth was 4.5 meters which is consistent with prior years and the surface temperature was 12 degrees C. The water level was at maximum when the ice went out.

For more statistics, go to the Mississippi Valley Website www.mvc.on.ca which is linked

on the KLA's website www.kashwakamak.ca.

Select logging continued in January and February on the south east end of Kashwakamak Lake not far from the cottages. The logger is under strict rules as to what he can cut and leave. Many saplings are cut to make way for a healthy regrowth with no over-crowding. The mature trees that are taken are used for lumber, pulpwood and firewood.

Enjoy your summer at the lake,

Milt Houle
Lake Steward

Help our Loon Watch Efforts ... Spot a Loon?

Please report your Loon Sightings, Loon Nests, Loon Hatchings etc. to Darryl Simpson @ **613-336-1409** or by email at

dsimpson_59@sympatico.ca

There was an early spring Mallard duck nest spotting on Kash along with a shot of the proud mama and her babies a while later. Thanks to Lynn McKeown for sharing her photos.

NEW KLA Logo Unveiled

And the winner is ...

The KLA Board reached out to its members to get a new association logo. The KLA Logo contest was launched and after careful consideration of the many entries from the membership, the directors recently selected the winning design. The new logo creation was done by Carl Annis. Carl has been coming to the lake since he was born 30 years ago. He has camped on many islands on the lake and enjoys the outdoors.

The Board would like to thank everyone who submitted entries. We were delighted that the age range of submissions reflected our KLA membership so well. We appreciate your time and effort.

Look for the new logo in its various formats (see above) on the KLA website, emails, publications and the new exciting Kashwakamak Lake clothing line being unveiled at our AGM!

It's Easy to Help, cont'd from p. 1

adding to it as new information is provided and post it to the KLA website, www.kashwakamak.ca.

We are asking people who live, play and work on the Lake to share their stories. Add your photos, old documents and timelines. Share the history of your Kashwakamak Lake story. To date we have a comprehensive history of Weiss Point and we would like to add more. We will have a map of the lake indicating where we have social history contributions so you can learn about the history of this beautiful lake.

Please help us out. Take some time this summer season to talk to your family and friends and then share it with us. For more details, contact Sue MacGregor @ 613-336-2693 , 612-916-8774 or suemacgregor@comcast.net.

p. 9)

State of the Lake Report cont'd from p. 1

There are several benefits to lake sustainability planning. This process promotes discussion and action with all community members to:

- ⇒ **Identify and protect specific lake values**
- ⇒ **Identify issues and impacts**
- ⇒ **Set a future vision for the lake**

The KLA has posted the *Summary State of the Lake* document on its website, www.kashwakamak.ca for members to review before the AGM. Following the meeting, the full draft report will be posted and printed copies will be available at the Library in Cloyne and the North Frontenac Town Council Office. Limited printed copies of the State of the Lake Summary document will also be available at the AGM. If you do not have access to the internet and would like a printed copy of the Summary please contact Judy McIntyre at 613-336-2882 or 613-233-3564.

Lake Sustainability Planning is moving to the second step – **Analysis Phase**. Now is the time to learn where we are as a lake and a community and to become involved.

Please plan to **join us on Saturday July 13th at 9:30 am** at the Lions Hall in Northbrook and learn about this important initiative.

Be informed. Become involved.

Lake Sustainability Planning Phases

1. Research Phase

- Surveys, discussion, research

⇒ **Publish draft 'State of the Lake' report - Current Focus**

2. Set a Future Vision—Analysis Phase

- Obtain feedback on state of the lake report
- Analyze and summarize research information
- Visioning with the community

3. Build a Draft Sustainability Plan

4. Review Draft Plan for Feedback

- Discussions in community for feedback
- Change draft plan based on feedback

5. Approve Plan

6. Community carrying out activities from the plan

KLA Welcomes MVC Summer Student Support For Lake Sustainability Plan

Mississippi Valley Conservation (MVC) has hired Kris Kok as a lake planning assistant for the Kashwakamak Lake Sustainability Plan Project.

Kris is entering his fourth year at Carleton University, and is working towards a degree in

Environmental Studies. Kris' work term runs from May 13th to July 5th, during which time he will be working on the draft State of the Lake Report, carrying out some mapping projects and researching other lake plans.

Family Day – Saturday August 10th, 2013 Fernleigh Lodge

Join us from 11:00 am – 3:00 pm

We are now into our 4th Annual Kashwakamak Lake Family Day and Barbeque. This year we have a fun-filled day planned that you will not want to miss. Johnny Toronto will be headlining the day. You don't want to miss this amazing show that has been performed from Moscow to Rio de Janeiro. Comic, Juggler, Unicyclist, Johnny Toronto juggles fire torches atop a 6 ft. unicycle. You will be thrilled by his skills and humour as he performs for us.

New this year will be a Balloon Castle and Snow Cones added to our popular Family Day regulars: Art and Crafts, Face Painting, old fashioned picnic games and as always our popular Family Tug of War finale. We'll also have our popular Silent Auction and Vendors Booths.

Hotdogs/Sausage and Hamburgers along with potato chips will be on the barbeque menu, so bring the family, neighbours, in-laws, guests etc. for lunch and enjoy meeting your neighbours and have a fun-filled Family Day. Food tickets will be on sale at the door.

We look forward to seeing you at Fernleigh Lodge, August 10th. Check our website www.kashwakamak.ca for more details and photos from previous Family Days. Come join in the FUN!

Mary Larson

KLA Annual Dinner & Silent Auction

Tickets for the popular Annual Dinner go on sale at the KLA Annual General Meeting, Saturday July 13th – Northbrook Lions Hall 9:30 am.

Get yours early as tickets are limited. Cost is \$25 per person.

Start saving now and bring your **Silent Auction Items** with you to the dinner.

Saturday September 28th, Fernleigh Lodge @ 6:00 pm

Contact: heathercpenny@gmail.com or call 613-336-0072

North Frontenac Council Update

Just a reminder that **summer burn rules** are in effect, that is, no open burning any time between 7 a.m. and 7 p.m. With all the rain we have been getting, there is no fire ban on at the moment so for now, (early June) campfires and roasting marshmallows are in order!

North Frontenac Council is in the process of changing its size and structure. Tentatively, instead of the current 6 council members and one mayor, there will be only 5 members on council - one elected from each ward, and the mayor and deputy mayor elected at large. This is still to be finalized, but it looks like these changes will be in effect by the time the next municipal election rolls around.

An information session was held recently at the Clar-Mill Hall

in Plevna to let residents know about the **improvements in high speed internet access** that are taking place in our area. A group called the EOWC or Eastern Ontario Warden's Caucus is spearheading these improvements with funding from

“Summer burn rules mean no open burning between 7:00 am—7:00 pm”

the Federal and Provincial Governments, the private sector, and from the EOWC. The work is being done through the EORN or Eastern Ontario Regional Network (www.eorn.ca), an oversight group dedicated to improving high speed internet access in Eastern Ontario. They are working with a number of private

sector companies, like Xplornet, to build networks and provide better access to all of Eastern Ontario. The representatives who provided the information session encouraged everyone to contact them with any complaints or suggestions about internet service - you can call Lisa or Anita at 613-925-7010.

Another bit of information we received at the above information session was about **new Bell cell phone towers** going up to service Plevna and Lake Kashwakamak. We were told that within the next few months, a new tower will be going up on Buckshot Lake/Sand Lake road, and another on Smith Road that should serve most of Kash Lake. This will greatly improve cell phone access in our area.

Ruth Blamire

Waste and Recycling News & Notices 2013

Changes have been made to some **Waste Site Open Hours** in the Municipality to include one of the Household Hazardous Waste Depots; and to the Tipping Fees for volume waste, furniture pieces and carpet waste, **effective May 15, 2012**. The permanent WEEE (Waste Electrical and Electronic Equipment) Collection Bin at the Plevna Waste Disposal Site and at the 506 Waste Disposal Site are now operational during regular hours. The overall Municipal Diversion Rate is currently 20%. To continue to protect our waste sites **the use of clear bags is still mandatory**.

NEW: The Cottage Kit

If you rent your cottage on a weekly basis, this kit will help manage the waste and recycling created by your renters. The Cottage Kit contains everything a family renting a cottage needs in order to manage their garbage and recycling for a week. The kit includes a *“One-time Waste / Recycling Site Pass”* for your renter to provide to the Waste Site Attendant. Kits can be purchased at the Municipal Office, 6648 Road 506, Plevna. Call 613-479-2231 or 1-800-234-3953 www.northfrontenac.com

NEW!!! KLA Social History Gallery

Bring your old photos and documents to the KLA AGM for scanning

As part of the Lake Sustainability Committee's efforts to gather social history of the lake and its' residents, (which includes old photographs and documents as well as your stories), we are creating a **Social History Gallery** which will be housed on the KLA website, www.kashwakamak.ca.

We know that not everyone has access to a digital scanner so we're delighted to announce that we will have a scanner at the **KLA's July 13th AGM** for people who don't have access to one so they can get their old photos and documents scanned and added to our **Social History Gallery**. We will be continually adding to this gallery, so don't worry if you can't make it. Also, you can email your digitized photos and documents to Don Cory at dcory.site@gmail.com or call him at 613-336-2374 to make arrangements to drop them off.

The scanner is capable of scanning documents, pictures, 35mm slides and 35mm negatives which it converts to positives. It can scan up to 8 1/2" to 14" items. If your documents are larger, Don can use the scanner at his work which is capable of items up to 11" x 17". For anyone wanting to scan larger documents, please know that he would have to take the larger items away and return them to you.

NOTE: Please arrive earlier than 9:30 am if you would like your photos and documents scanned during the AGM.

KLA Board of Directors 2012-2013
