

Gerry Lichty - Candidate for Mayor

Township of North Frontenac

Platform Objectives

Less Government. We need to be more careful in drafting and passing bylaws. Although passed with the best of intentions, some bylaws end up targeting the wrong people. Identify and review these with the intent of making them less onerous.

Support practical, business model style decision making. If you want something, then demonstrate why it is required and how we are going to pay for it. Any staffing increase would be a last resort and based on detailed analysis.

Ensure that our asset management plans are being kept up to date and that they are being used as intended.

Promote increased operational flexibility. We tend to be a black and white township and this frequently causes issues among ratepayers and neighbours. Work to encourage Council and Staff to be more flexible in their decision making.

Work to ensure that Council maximizes operational transparency

Review the planning process and introduce, wherever possible, measures to shorten time lines and reduce costs.

Continue to work to protect our lakes, rivers, streams, and forests. Protection of the environment is priority.

Promote suitable economic development for North Frontenac.

Rebuild our working relationship with the County of Frontenac. Work with our neighbouring municipalities to share ideas and resources.

Work to ensure that Council and Staff complete their duties in a professional manner and demonstrate mutual respect for each other as well as the public.

**Gerry Lichty - Candidate for Mayor
Township of North Frontenac
Gerry's Promises**

Promise #1

If elected to the position of Mayor, I promise to carry out my duties and responsibilities professionally and with the utmost integrity. As your representative, I will be a mayor that you will respect and trust.

Promise #2

I promise to listen. We may not always agree but you will always know that I have taken the time to listen and to respect your opinions
