## Dam Update and more at July's AGM!

Your KLA Board has been busy planning this year's AGM & BBQ which will be held on Saturday July 13 at the Northbrook Lions Hall. Doors open at 9:00 am with the program running from 9:30 – 11:30 am. A BBQ, once again sponsored by Woodcrest Resort, will follow for everyone who has sent in their RVSP and food choice.

Highlights of our agenda include:

- ⇒ Update on the Kashwakamak Lake Dam EA – MVCA
  - ⇒ Presentation by the North Frontenac Lake Association Alliance
  - ⇒ Membership vote to approve increase of KLA membership fee by \$5
  - ⇒ Question & Answer session with presenters and your local Councillors
  - ⇒ Demonstration by the North Frontenac Fire Department on how to safely use a fire extinguisher. (This will be held outside, immediately after the program ends.)
  - ⇒ Draw for the 3 winners of this year's Natural Edge Shoreline and Planting Kit (Value \$395)
- (AGM cont'd p. 6) ➡

## President's Corner - Sue MacGregor

The May long weekend is just ahead of us and I'm amazed at how fast everything is growing already! I hope your properties wintered as well as ours did. It sure looked like a good number of people had fun on Kashwakamak Lake all winter too, despite the lack of deep snow and ice on the lake.

Thanks to all who shared your photos on our [Facebook Group](#). For those of you who aren't part of the group, I encourage you to join. It's a great way to stay connected, meet new people around the lake and ask for or share referrals of local businesses that you've been pleased with. We've also started a **"Your Questions Answered"** section in the Newsletter (see page 5, so please send me any questions you may have and we'll try to respond in the fall edition.

### Your Board

I want to thank your KLA Board members for their dedication to our lake. They made the decision last fall to have virtual one-hour monthly board meetings so we could keep on top of vital issues including the Kashwakamak Lake Dam Environmental Assessment and North Frontenac's 5-year Plan, to name a couple. This has proven to be a great way to stay in touch.

### Treasurer Needed

After over 10 years on the Board in various capacities, our treasurer Judy McIntyre will be stepping down. We are looking for someone who is comfortable with Quick Books as Judy has done a tremendous job setting up our account receivables and payables for an easy turnover. She has also committed to working with the new treasurer to "show them the ropes." Please consider putting up your hand (there's one year left in this term) and, or sharing this with a friend, neigh-

bour or family member who might fit the bill.

### AGM

I encourage you all to come to this year's AGM on Saturday July 13. The highlights of the agenda are on page 1 of this newsletter and we'll share more information via email in June. We are very pleased with the line-up and think you will be too!

### Proposed Membership Fee Increase

One item of note is the vote to get member approval for a \$5 membership fee increase to a total of \$20. I want you to know that the Board deliberated carefully on key considerations for this request including the FOCA fee increase, the KLA's large membership base relative to many other lake associations, the modest contingency fund needs of a non-profit, and our reliance on paid advertisers to keep fees low. We will include an option to vote by proxy if you aren't able to attend the meeting.

The Board unanimously agreed that a \$5 increase would offset increased costs and provide a modest contingency. We noted that this small membership fee increase would not preclude seeking an increase in future years based upon significant changes such as: a major drop in revenue (e.g., newsletter advertising), any compelling opportunities for larger investments in lake sustainability; or, if services currently donated by volunteers (bookkeeping, newsletter advertising requests, marker maintenance etc.), had to instead be provided by paid contractors.

### Healthy Shorelines – Enter to win free Natural Edge Shoreline Assessment and Planting Kit!

The KLA continues to focus on the value of having healthy shorelines. Every little bit we can each do will help keep our water quality high, as well as our communal enjoyment of the lake. Check out page 6 for details on how you can be one of three lucky winners of the Natural Edge Shoreline Assessment and Planting Kit – value \$395. The winners' names will be drawn at the AGM. Please email me if you have any questions, [president@kashwakamak.ca](mailto:president@kashwakamak.ca).

Weather continues to play a factor in our lake lives, and I encourage everyone to stay on top of any fire bans or lake level issues that may occur this season. Please check the [township's website](#) for all up-to-date information.

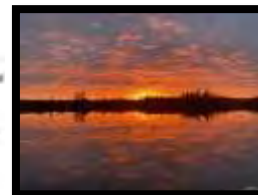

### Annual Fall Dinner & Charity Auction is back!

We're delighted to announce that we'll be back at Fernleigh Lodge on Saturday September 21 at 5:00 pm for our Annual Fall Dinner and Charity Auction. We're looking forward to Melissa Phillips' delicious cooking and all the fun we'll have along the way. We'll have more information shortly on how you can get your tickets.

Have a great summer!

*Sue MacGregor*

[president@kashwakamak.ca](mailto:president@kashwakamak.ca)

# Lake Steward's Report - Pete Johnson

Well, that was a winter for the storybooks. It was the mildest I can remember with minimal snow load in the woods and on the snowmobile trails. Ice thickness was far less than normal as well. Ice off usually occurs in the second week of April. This picture was taken in the center of the lake opposite Brown's Bay on March 20th.

Photo: Pete Johnson, March 20, 2024

There are some concerns with early ice off. One concern is that lake stratification can occur sooner, resulting in lower O2 levels at the deeper levels of the lake earlier in the season. This is not good for aquatic life. Another problem could be the lake heating quicker and reaching higher temperatures than normal, possibly causing more algae growth issues.

## MVCA 2023 Integrated Water Monitoring Report

Kashwakamak Lake was part of MVCA's 2023 5-year cyclic Integrated Water Monitoring Efforts. Samples were taken in May, July and September in the east and west basins of Kashwakamak Lake. Total phosphorus level average was 6.8 micrograms/l with levels slightly higher in the

west basin than the east. Water clarity was slightly less in the west basin as compared to the east as well. Of the 11 lakes in the Mazinaw and upper Mississippi River water shed sampled last year Kashwakamak was amongst the lowest for total phosphorus with no disturbing trends. Anything less than 10 micrograms/L is considered good.

## Good news!

I've been in contact with Kelly Stiles the biologist for MVCA and she says Kashwakamak lake is holding steady with low nutrient levels and good secchi depths.

*"...the lake is holding steady with low nutrient levels and good secchi depths..."*

While there may be year-to-year variations, there are no overall directional trends in the data. She encourages properly owners around the lake to appreciate these good conditions and continue to maintain shoreline and lake health stewardship like the tree day event occurring on June 1<sup>st</sup> with order pick ups at Fernleigh Lodge and Woodcrest Resort.

You can read the specific results about Kashwakamak Lake on pages 32 and 48 in the [MVCA 2023 Integrated Monitoring Report](#).

Northern Lights were incredible last night, active for 7+ hours - I stayed up until almost 5am watching 🌟

# North Frontenac Updates

## Voluntary “FREE” Septic Re-Inspection Program

The KLA encourages you to book now for your free Septic Re-Inspection! The primary focus of this program is to educate property owners about their onsite waste treatment systems and any deficiencies with it. Overall, the Re-inspection Program aids in keeping our lakes and groundwater pollution free. Systems that are improperly maintained, older, outdated or malfunctioning may have a negative impact on our water.

In 2023, Kashwakamak Lake accounted for 65% of the properties that were re-inspected under this program - 23 properties in all. Thanks to all of our members who participated! Lets keep it up in 2024.

Book your appointment here: [Septic Re-Inspection Program - Township of North Frontenac!](#)

## North Frontenac Strategic Plan

North Frontenac engaged in a Strategic Plan process in the Fall of 2023 which I know many of you provided input into. The following is a link to the 2024 – 2028 North Frontenac Strategic Plan document <https://www.northfrontenac.com/en/township-services/resources/Documents/Treasury/North-Frontenac-Strategic-Plan-Final-Report-ACC.PDF> that will serve as the “roadmap” for North Frontenac as they set priorities and assess opportunities against this overall strategy. You will be happy to note that a key tenant of the Plan is a continuing commitment to “environmental conservation.”

## Reminder – Lights Out Please

As you return to the lake for the summer season – a reminder to leave the city lights behind. North Frontenac has the darkest skies in Southern Ontario. Enjoy them and ensure that our wildlife at the lake can also live in the environment that they are entitled to! If you are interested, the North Frontenac Astronomy park is one of the best places for stargazing in all of Ontario.

## Some tips for responsible lighting

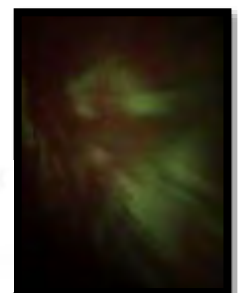

Here are some practical ways to practice responsible lighting so that we can all enjoy our dark skies:

- ⇒ Use down lights only – with all outdoor lights with shields; turned off when not needed for safety
- ⇒ Cover solar lights when not needed for safety
- ⇒ No spotlights shining into the lake or onto the dock which reflect into the lake and other properties
- ⇒ Turn off/remove dock lights disruptive to the environment and everyone’s enjoyment of the dark skies

## NF/NFLAA Questions?

© Owen Phillips Fineart & Photography

## ***Your Questions Answered!***

(This is a new feature. Let us know what areas you want to learn more about. Please send your burning questions to [president@kashwakamak.ca](mailto:president@kashwakamak.ca) for the fall issue.)

### ***Question: What are the township guidelines for maintaining a natural shoreline?***

The Township of North Frontenac, with the support of the Mississippi Valley Conservation Authority, along with the KLA, fully support maintaining natural shorelines on our lakes to the maximum extent possible. The North Frontenac **Natural Vegetation Buffer and Waterfront Activity** Bylaw 3.29.1 (<https://frontenac.civicweb.net/document/261422/>) requires that the:

*“area from the high water mark extending inland a depth of minimum of 15 metres for the entire width of the lot, shall retain natural vegetation ...subject to limited exception of a waterfront activity area...”*

For your reference, here’s a summary of **permitted exceptions**:

- ◆ One (1) access corridor not greater than 7 metres
- ◆ A pathway within the access corridor not greater than 2 metres in width
- ◆ Stairs for access to the shoreline are permitted with a maximum width of 2 metres
- ◆ Pruning of trees for viewing purposes is permitted
- ◆ Removal of dead or diseased trees for safety reasons is permitted
- ◆ Stumps should be retained wherever possible
- ◆ **Clearcutting is prohibited in this area**;... selective cutting is permitted in the area commencing at a point 15 metres inland from the high water mark up to 30 metres from the high water mark
- ◆ Additional tree removal shall only be permitted where trees are marked for removal by a Licensed Tree Marker

## **Notice re: KLA Low Wake and Hazard Markers**

Each spring, and throughout the season, on behalf of the Kashwakamak Lake Association (KLA), Low Wake and Hazard Markers are placed, and/or checked around the lake in an effort to mark some of the lake’s shoals, rocks, boulders, narrow passages etc. While best efforts are made to mark the most hazardous areas, it is not realistic to be able to mark everything, especially in areas that are close to shore or have little boat traffic.

- It is critical that boaters realize that these **MARKERS** are **NOT** navigational buoys. Instead, the markers are intended to call attention to **SOME** of the lake’s hazards.
- **EVERY** individual operator of a watercraft is solely responsible for safe boating, including the avoidance of any marked or unmarked water hazards.
- While we try to identify and mark hazards, the KLA is not responsible for ensuring all hazards are marked, or continue to be marked.

Please report any missing or damaged markers to [LakeSteward@kashwakamak.ca](mailto:LakeSteward@kashwakamak.ca)

(AGM cont'd from p. 1)

We will be sending out emails requesting your RSVP and food choice for the BBQ in the near future, along with proxy forms if you'd like to vote and can't make the meeting. Please also remember to bring you food and/or cash donations for the Food Bank! We look forward to seeing you all there and meeting new neighbours and people on the lake!

### Thanks to our sponsor

Thanks to [Woodcrest Resort](#) and Kyle and Morgan Jenkin, [Compass Resorts](#) for once again sponsoring this year's AGM BBQ.

## Enter to win a free Natural Edge Shoreline Assessment and Planting Kit!

The KLA's focus for Lake Sustainability in 2024 continues to be *Shoreline Health - Creating a Natural Ribbon of Life*. In support of this initiative - we are pleased to announce that again this year, the KLA will gift three lucky KLA members with a "Natural Edge" package (valued at \$395 each) which includes a site visit from Watershed Canada to discuss your shoreline, a detailed personalized planting plan to help you improve your shoreline and a selection of plants to get you started!

### Enter now!

Please send an email to [president@kashwakamak.ca](mailto:president@kashwakamak.ca) confirming that you would like to enter, including your cottage address. We will then enter your name in a draw to take place July 13th at the KLA AGM (no need to be present to win the draw- we will contact you.) It's that simple. So, get your entrees in now so that you don't miss out on this great opportunity!

(Note that pick up of your plants is at Watershed Canada's office in Perth Ontario, or Sharbot Lake. We request that you agree to take pictures of your plantings so that KLA can use as appropriate on our website, in our newsletter and our Facebook Group as an inspiration for others.)

Some of last year's winners will share their shoreline planting success at this year's AGM!

## FOCA – Membership has its benefits!

### Did you know?

FOCA voted to increase it's membership fees at its 2024 Spring AGM. This means that **Over 30%** of your \$15 KLA membership fee goes to your membership with the Federation of Ontario Cottagers' Association (FOCA). As such, KLA members get access to excellent member-only resources. Last fall we emailed our members with the steps to take to create your own FOCA log-in so you can access this information, as well as a Member Benefit PDF with savings codes. We encourage you to take advantage of this. Please make sure you opt in to get their email updates and let us know if you didn't receive this email by contacting Don Cory, [membership@kashwakamak.ca](mailto:membership@kashwakamak.ca)

Here are some useful FOCA links:

<https://foca.on.ca/>

# UPDATE: Kashwakamak Lake Dam Environmental Assessment

## First Community Liaison Committee Meeting held

As you may recall, the KLA is closely following the Environmental Assessment Review of the Kashwakamak Lake dam. I am pleased to report that the Mississippi Valley Conservation Authority (MVCA) is making good progress on its Environmental Assessment Review for the future of the dam over the Mississippi River at the eastern end of our lake. On February 26, the MVCA and its Consultants Egis presented preliminary findings to the first meeting of the Community Liaison Committee (CLC) established to provide input into the review.

The CLC includes North Frontenac Mayor Gerry Lichty; representatives of the KLA, Directors Alan Dean and Andrew Johnston; three other KLA members who are lake cottage owners, Michael Fenton, Lawrence Flynn and Bernie Harrigan; and a representative of the Hiawatha First Nation, Tom Cowie, Lands/Resources Consultation.

Lisa Marshall, the project manager at Egis, led the presentation. She reviewed the areas examined by the study team: the natural and social environment of the dam; archaeological and heritage assessments; hydrological studies upstream and downstream of the dam, and a structural evaluation of the dam itself. One consideration is maintaining maintaining water levels for the Manòmin (wild rice fields) which has a cultural significance to the Ardoch Algonquin First Nation, Alderville First Nation and potentially other First Nations.

The study team then examined five alternatives: (1) do nothing - make no changes at this time; (2) demolish and decommission the existing dam and either construct a passive system (such as an overflow weir system) or reinstate the natural watercourse; (3) rehabilitate the existing dam; (4) demolish the existing dam and replace it with a new dam at the same location; (5) demolish the existing dam and replace it with a new dam built across the Mississippi River a short distance downstream.

Photo: <https://mvc.on.ca/>

## Good news!

Based on an initial evaluation, the recommended technically preferred alternative is **Alternative 4 - replace the existing dam at the same location**. This alternative will enable the MVCA to maintain current water levels and flows upstream and downstream of the dam and provide additional capacity to handle major storms and future climate change events, with no adverse environmental impact.

## Next steps

After a good discussion, the members of the CLC expressed broad support for rebuilding the dam at its present location. Egis and the MVCA emphasized that this alternative was the currently recommended alternative and will be confirmed following further consultation with agencies, stakeholders, First Nations, interest groups and the public.

## Community Meeting next week!

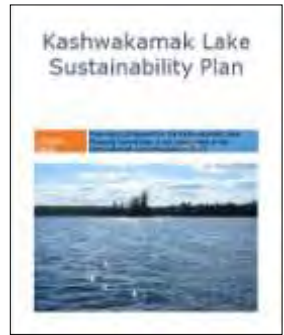

On **Thursday May 23 from 4:00 – 6:00 pm**, the MVCA and its consultants will hold a **virtual Public Information Session** on the Kashwakamak Lake Dam EA. This will allow agencies, stakeholders and the general public to comment on the study's progress, the alternatives reviewed and the preferred solution. If you are interested, visit MVCA's website for the ZOOM link and call-in details at <https://mvc.on.ca/current-initiatives/kash-class-ea/>

Selection of the technically preferred alternative will be made upon the completion of this stage of consultation and the remaining studies. The EA review should be completed this year, followed by a formal notice of project completion. Detailed design, tendering and contract selection will proceed during 2025. Demolition and reconstruction will probably not start before 2026.

(Dam EA cont'd p. 10) ➡

# Lake Sustainability Implementation Update

## MVCA Tree Planting Program for Kashwakamak Lake – Healthy Shorelines!

The KLA is delighted to participate in Mississippi Valley Conservation Authority's (MVCA) Tree Planting Program. The response from both KLA members and other property owners on the lake was great. In all, 21 KLA members are participating and 11 non-members with an order of **543 trees and bushes!** In addition, several KLA members are participating MVCA's [Shoreline Planting Program](#) and will have site visits this spring. The KLA made a **\$10 donation** for every KLA member participating, for a total of **\$210** to their **Wetlands and Stewardship** programs.

## Pick-up day – Saturday June 1 between 10 am – 2 pm @ Fernleigh Lodge and Woodcrest Resort

Everyone who placed an order for trees and bushes has a 15 – 20 minute pick-up window, in an effort to help things go smoothly. There's a lot to keep track of with 543 specimens! You should have received an email the week of May 6 letting you know what your pick-up window will be. If not, please contact Kayla Cuddy, [KCuddy@mvc.on.ca](mailto:KCuddy@mvc.on.ca). Make sure to say hi to the KLA Board Member who will be there, and let us know if you have any questions.

## MVCA Spring Report

Kelly Stiles, Aquatic Biologist at MVCA recent spring report stated that, *“Stewardship staff will be planting six private properties this spring, with additional plantings being planned for fall 2024; including ... hosting plant giveaways with Sunday Lake Association and Kashwakamak Lake Association.”*

For more stewardship program information please see their website: <https://mvc.on.ca/citizen-science-stewardship/planting-programs/>

## Invasive Species – How you can help

MVCA has an invasive species program in our area and one of their summer students is acting as a liaison for the program. This person will be available to help with species ID or provide educational resources such as ID booklets and boat launch signs. Please continue to keep an eye out for both aquatic and terrestrial invasive species in your area and report suspected sightings to either [eddmaps.org](http://eddmaps.org) or [inaturalist.org](http://inaturalist.org). You are also always welcome to send your photos directly to MVCA or call for advice. We would appreciate it if any concerns are also shared with our Lake Steward, Pete Johnson, email [lakesteward@kashwakamak.ca](mailto:lakesteward@kashwakamak.ca).

For more information see: <http://invadingspecies.com/> <https://www.invasivespeciescentre.ca/>

## Permitting Questions?

If you have any questions about MVCA's permitting process, or are concerned about a potential violation please refer to their website:

<https://mvc.on.ca/development-permits/>

<https://mvc.on.ca/development-permits/regulations-and-policies/>

## Lake Protection Workbook

Please take advantage of MVCA's **Lake Protection Workbook**. It is available online here: <https://watersheds.ca/lake-protection-workbook/> or if you'd like printed copies we will have some available at our July 13 AGM at the Lions Hall in Northbrook.

## Community News

### Land O'Lakes Speakers' Forum

The Speakers Forum is back for 2024 at the Northbrook Lions Hall . Start time is 7 pm, followed by light snacks. Bar will be open. Take advantage of the excellent speakers for the 2024 season (April – September).

For more information on the Speakers' Forum please go to <https://pioneer.mazinaw.on.ca/2024/04/03/2024-land-o-lakes-speakers-forum-program/>.

The poster for the Land O'Lakes Speakers' Forum 2024 features a black header with the title in white and green. Below the header, it lists the financial support by Raymond James and the Land O'Lakes logo. The main content is a grid of speaker information for six dates: April 24, May 22, June 26, July 24, August 28, and September 25. Each date lists a speaker's name, title, and profession. A vertical green bar on the right side of the poster reads 'UPCOMING SPEAKERS April – Sept 2024'.

Date	Speaker Name	Title	Profession
April 24	TERRY FALLIS	AUTHOR	
May 22	HAND SIMON	HOCKEY AGENT	
June 26	RITA di GHENT	CREATING FROM A NEURODIVERGENT BRAIN	
July 24	Dr. JOHN CRANFIELD	ACTING DEAN	UNIVERSITY OF GUELPH
August 28	ALANA FREE	SENIOR VICE PRESIDENT	GOOD LIFE FITNESS, CANADA
September 25	GARY COLWELL	ASTRONOMY PROFESSOR	

### Food Bank Donations are easy!

Anyone can donate directly to the **Land o' Lakes Emergency Food Bank** in Cloyne and receive a tax receipt.

You can send an e-transfer to [lolfoodbank@gmail.com](mailto:lolfoodbank@gmail.com)

You can mail a cheque to North Frontenac Food Bank, Box 67, Cloyne ON K0H 1K0

*Questions?* Call 613-532-8855 and leave a message.

### Did you know?

“The Kashwakamak Lake Association (KLA) acts to monitor the health of the lake and its ecosystems, monitor lake issues such as taxes, interface with Municipal Council, organize community events and keep all residents (seasonal and year-round) informed of important developments.

Areas of interest include the environment, water safety, public health, lake stewardship and member education. Issues on which we have lobbied include: market value assessment, lake-front purchase, proxy voting and municipal services.”

[www.kashwakamak.ca](http://www.kashwakamak.ca)

### We appreciate your Donations to the KLA!

Did you know that every year the KLA receives unsolicited donations? Some are even anonymous. Thank you to everyone who loves the lake and is helping the KLA.

#### Interested in donating?

There are **3** easy ways you can donate:

- \* Send an **Interac** payment to [treasurer@kashwakamak.ca](mailto:treasurer@kashwakamak.ca) (no password required)
- \* Mail us a cheque to Treasurer, KLA, 1715c Kashwakamak Lake Road, Arden ON, K0H 1B0
- \* Add a donation to your Annual Membership fee payment in January 2024

(Dam EA cont'd from p. 7)

### Addressing our concerns

The CLC urged the MVCA to minimize any disruption to the normal schedule for raising and lowering the level of our lake and to provide early notice of any changes. The MVCA agreed to do so and indicated they were eager to reach out to the lake community through the KLA and other lines of communication.

The KLA is committed to keeping our members and lake community up-to-date with this project. Please forward any concerns or questions to either [directoralan@kashwakamak.ca](mailto:directoralan@kashwakamak.ca) or [directorandrew@kashwakamak.ca](mailto:directorandrew@kashwakamak.ca). This is a standing item at our monthly board meetings and there will be a presentation at our July 13 AGM.

You can find updated information on this project on our website,

<https://kashwakamak.ca/kashwakamak-lake-dam-environmental-assessment-notice-of-intent/>

**Geco Industries The #1 Kohler Dealer In Eastern Ontario**

## KOHLER®

Fully Automated  
Generators Protect  
Your Home and Family

### WHAT'S A HOME GENERATOR?

Standby home generator keeps your power on during an outage. It's installed outside your house (like an AC unit) and comes on automatically whether you're home or away. All within seconds of a power outage. Plus home generators run on propane or natural gas, so there is no refueling.

**GECO INDUSTRIES IS YOUR LOCAL INSTALLER OF KOHLER STAND BY GENERATORS**

- In business since 1999
- 3 service technicians
- Large inventory of Generator, Switches and Parts
- Warranty
- Locally owned and operated
- Financing available

**VISIT OUR SHOWROOM AT**  
2 Ranney Gorge Drive, Campbellford
